

Dr. Racine,

I can't thank you enough for helping me with my neck pain. I have had headaches all my life and I had been having shoulder, neck and jaw pain for about a year. Although, my neuromuscular dentist had been able to help me with my TMJ, I was still having neck and shoulder pain. At her suggestion, I sought out an AO Chiropractor. That is when I found you! From the very first visit, I could tell a difference. My pain diminished and my body felt "different". I had so much energy I didn't know what to do! I am not 100% better yet, but I know I am well on my way with your help.

Thank you for all your help and health advice. Although I was skeptical, I took the Noni Juice you suggested for my allergies. It worked! The only time my allergies have bothered me was on the day that I forgot to take the Noni. Amazing!

It is wonderful to have a doctor that truly wants to make his patients better instead of just giving out more pills to mask the problem.

Thank you again,

Bev Kim
